

To whom it may concern.

September 6th 2017

It is my pleasure to provide this letter of reference for **Mill Bay Masonry Ltd**

We have recently completed a sizable project at Nanaimo Regional General Hospital which included the remedial repairs to existing brickwork to the front of the hospital including new brickwork along with support brackets and new cavity wall ties. The work was extremely complex in term of methodology and working conditions related to working in and around a fully functioning hospital. I am happy to report this was one of the smoothest projects to date.

Mill Bay Masonry proved fundamental in dealing with any unforeseen and/or unexpected issues. Their communication with the structural engineers and hospital staff was excellent as well as finding solutions in a timely manner- all of which contributed to the projects' success.

I would not hesitate to recommend the services of Mill Bay Masonry Ltd for any masonry related work and/or any project requiring an above average approach to working within the healthcare industry. We at Western Medical Inc will for sure be in touch with Mill Bay Masonry should any future projects arise.

Please feel free to contact me at any time with respect to the above.
